

S. No.	Description	Qty Nos.
1.	Diaphragm Compressor Design: Vertical V-type or Z-type Media-Halogen gas Suction Capacity : 12 cubic meter /hr (Normal) Suction Pressure: 1 bar absolute (0Bar gauge) Discharge Pressure : 2-3 bar absolute (1-2 bar gauge) Suction temperature: 40 Celsius approx Hydraulic medium : Fomblin Oil Y-25/FI-25 Metallic diaphragm With diaphragm rupture detection device Stage cooling with water Voltage: 380-415 V, 50 Hz With three phase motor & compressor baseplate Make Chinese	02
02	Spares for overhauling (For above compressor)	02 Sets
03	Spare Diaphragm (For above compressor)	10 Nos.
04	Non-return valve (gas compression) (For above compressor)	10 Nos.
05	Oil overflow valve (For above compressor)	04 Nos.
	Note: (i) Item No.2 should be bare minimum (ii) Technical datasheets/Brochures should be provided in English language along with quotation.
