

300W Vertical Wind Turbine

Power(w)	300	Rated wind speed (m/s)	12.2
Rotor diameter(m)	1	Start-up wind speed (m/s)	1.2
Height of blade (m)	1.2	Range of working wind speed(m/s)	25
Material of blades and numbers	Glass fiber reinforced plastics/3	Survival wind speed (m/s)	50
Rated rotor speed (m/s)	200r/min	Output Voltage	AC12/24V
Speed regulation method	Electromagnetic control	Stop method	Electromagnetic brake
Range of working temperature	-45-60	Suggested supporting battery	2pcs12v100ah
