

Sr. No	Description/ Specifications/ Cat/Part No. of Scientific Technical/ Administrative Stores	Quantity Required / Unit
1	2	3
1	<p>Tube-type fuel level sender (as per attached drawing)</p> <p>Type: VDO Sensor Length: 11" Liquid: Diesel fuel Resistance range: 10-180 Ohm Action: Resistance increases with increasing level Mounting/installation: Top mounted, flanged, with provision for fuel return and suction via built-in tubes. Mounting flange: hole-to-hole dia=60mm, hole dia=5mm, number of holes= 6</p>	6
2	<p>Pressure gauge for diesel oil level Dial size: 10" Peak Ambient temperature: 55°C Range: 3 metres diesel oil level Scale: Metres, diesel oil level</p>	3
