

1. ON-Line PH Meter:

Quantity : 01
Purpose : To measure and control PH of effluent treatment

2. Product Specifications:

PH Range : -2 to 5
Operating Temperature : 100-150 Deg C
Operating Pressure : 6 Bar
Speed of response : 3-5 sec
Wetted Materials : PPs (body), HDPE(junction), PH glass,
Viton o-rings
Cable Connections type : Coaxial:Centre
Make : Sensorex (S8000CD Series-EM802-
pH2)/Equivalent European Origin
Transmitter Output : 4-20 mA loop-powered transmitter module
Electrode Adapter : YES (EA899TC-Plk)

3. Remarks:

- i. Complete technical literature/brochures, maintenance schedule, operational life, and installation /foundation drawings must be in the scope of supply.
- ii. Any other item for the efficient & safe working of the System-Bidder to specify.
