

Sr. No.	Description	Qty. (Nos.)
1	Capacitance Probe alongwith Transmitter Fluid : Water Immersion Length	
	0 - 4.2 meters	02
	0 - 6.6 meters	01
	0 - 5.3 meters	01
	0 - 2 meters	01
	Fluid : Diesel Immersion Length:	
	0 - 1.8 meters	03
	Mounting : Top mounted with preferably 3/4" NPTM threads Material : SS Operating Pressure : Ambient Operating Temperature: 0 - 80 C  Transmitter Specification: Power Supply: Loop Powered Local Indication: Digital Display required (Preferably with backlight) Configuration: Local (additionally through HART475 / HART275)
