Sr#	Description	Qty		
1	Nitrogen Gas Generator, Skid Mounted			
	Process: Pressure Swing Adsorption			
	Capacity: 120 Nm ³ /hr			
	Nitrogen Gas Purity: \geq 99%			
	Working Pressure: 0-10 bar (adjustable)			
	Ambient Temperature: 46°C			
	Operational Control: PLC			
	Power 380-420 V, 50 Hz, 3-phase			
	Integral Components:			
	a) <u>PLC Controlled Screw Compressor</u>			
	I. Air cooled			
	II. Along with Suction Air Filter III. In-line Liquid-Gas Separator before Dryer			
	b) PLC Controlled Refrigerated Dryer			
	I. Refrigerant: 404A or latest			
	II. Digital Display of temperature & Dew Point			
	c) <u>Set of Filters for Removal of Organic Impurities</u>			
	I. 1.0 micron			
	II. 5.0 micron			
	d) <u>Air Storage Tank</u>			
	Equipped with Safety Valve, Drain Valve and Pressure Gauge			
	I. Quantity: One			
	II. Capacity: 4 m ³			
	III. Working Pressure: 10 bar			
	IV. Test Pressure: 14 bar (Mill Test Certificate must be provided)			
	e) <u>PLC Controlled Twin Bed PSA</u>			
	I. Equipped with Pressure Regulator & Flow Meter			
	II. In-Line Digital Nitrogen Gas Purity Meter with Display in			
	Percentage & PPM			
	f) <u>Nitrogen Gas Storage Tank</u>			
	Equipped with Safety Valve, Drain Valve, In/Out Pressure Gauge			
	I. Quantity: 2			
	II. Capacity: 4 m ³ each			
	III. Working Pressure: 10 bar			
	IV. Test Pressure: 14 bar (Mill Test Certificate must be provided)			
2	Spare Parts (Compatible with Item No.1)			
	a. Spare Screw Air Compressor			
	b. Spare Refrigeration Air Dryer	One		

c. Spare parts for PSA, including:			
I.	Spare Pneumatic Valves along with fittings and Pneumatic Tubes	3 Sets	
II.	Pressure Regulators	3	
III.	Flow Meters	3	
IV.	Digital Nitrogen Gas Purity Meter with Display in Percentage & PPM	2	
V.	PLC complete with hardware Software	One	
d. Spare Parts for Screw Air Compressor, including			
Ι.	Oil Filters	6	
II.	Air Filters	6	
III.	Oil Separator Filter Element	6	
IV.	Lubricating Oil	216lit	
V.	Pressure and Temperature Sensors	3 Sets	
e. <u>So</u>	<u>plenoid valves with timers for filters and drain points of air</u>	6 Sets	
Ve	essel and dryer		
Liter	ature In English Language Including	2 Sets	
Ι.	Wiring and Control Drawings of PLC		
II.	Electrical Drawings		
III.	Installation and Operational Manuals		
IV.	Flow Diagram including Fault Finding Procedure and its Remedies	ļ
