

Specification of Grinding Machine (Disc Mill/Pulverizer):

Item	Description	Qty
Main Unit		
1.	<u>Grinding Machine (Disc Mill/Pulverizer)</u> • Field of Application: Chemistry/Metallurgy/ Geology • Feed Material: Hard, Medium-Hard and Brittle • Input Feed size: < 20mm • Output final fineness: <100 (µm) microns • Material of Grinding Tool: Hardened Steel, Tungsten Carbide, Zirconium Oxide. • Gap adjustment with digital display: 0.10mm to 15 mm • Drive: Geared motor drive • Production Capacity: 100kg/hour • Collector capacity : 2.5-3.0 L • Power: 3-Phase (50 Hz) • Numeric control system • Grinding chamber interior with polymer coating • Fully dust free closed system	02 No
Spares		
2.	<u>Grinding tools (Disc)</u> • Material of grinding tool: ○ Hardened Steel ○ Tungsten Carbide ○ Zirconium Oxide	04 Pairs 04 Pairs 02 Pairs
3.	<u>Dust Exhaust system</u>	02 No.

Origin of Country: UK, Japan, Germany.
