Technical Specifications of High Temperature (1700 °C) Ceramic Sintering Furnace:

1	Model	KJ-BL-1700 Bottom Loading Furnace / Equivalent
2	Chamber model	Bottom Loading
3	Display	Touch Screen LCD
4	Limiting Temperature	1700°C
5	Usable Range	≥1650°C
6	Heating Rate	Suggestion 0~15°C/min
7	Accuracy	±1°C
8	Inside Chamber Size	1000*1000*1500(mm) (W*L*H)
9	Heating Element	MoSi2
10	Thermocouple	B Type
12	Chamber material	1800 °C High purity ceramic fiber
13	Working Voltage	AC 440V three phase, 50/60 Hz
14	Temperature Control	Automatic control via SCR digital controller
15	Warranty	One year limited warranty (Consumable parts such as heating elements are not covered by the warranty)

This furnace is widely used for ceramic materials sintering.
