

BLACK MAGIC BACK BAR BOTTLE

Ideal display will include:

Oversized bottle that has the appearance of black liquid fill with a skull suspended inside the bottle. Black liquid effect may be achieved through the use of actual liquid fill, stained/colored glass or lights (or combination of the above).

Base with lighting to illuminate skull

Explore movement options to keep the liquid fill (or appearance of liquid fill) in motion.

Please Note: This layout is a preliminary interpretation of concept only. Position of skull and type on bottle can change as needed or required by construction limitations.
