

| Item No. | Specifications | Qty Req. |
|----------|---|----------|
| 1. | Automatic Titrator | 02 No. |
| | i. Type of Titration | |
| | ii. Titration Precision | |
| | iii. pH range | |
| | iv. Resolution; pH | |
| | v. Relative Accuracy | |
| | vi. mV range | |
| | vii. Resolution: mV | |
| | viii. Relative accuracy | |
| | ix. Equivalence point | |
| | x. Temperature | |
| | xi. Automatic temperature compensation | |
| | xii. Burette Volume | |
| | xiii. Burette resolution | |
| | xiv. Key operation | |
| | xv. Language | |
| | xvi. Titrating Station | |
| | xvii. Combined Glass Electrode | |
| | xviii. Double Platinum Electrode | |
| | xix. Ag/AgCl electrode | |
| | xx. Ion Selective Electrode | |
| | xxi. Power | |
| 2. | Accessories | |
| | i. Combined Glass Electrode | |
| | ii. Double Platinum Electrode | |
| | iii. Combined Platinum ring electrode | |
| | iv. Ag/AgCl electrode | |
| | v. Ion selective Electrode for fluoride analysis | |
| | vi. Electrode cable compatible with instrument (2 meter length) | |
| | vii. Burette 10 mL | |
| | viii. Reagent Tubing (2 meter length) | |
| | ix. Electrode connector (E type to F type) | |

**Make: M/s Metrohm, Switzerland Model: Titrando 905 or
M/s Mettler Toledo GmbH, Switzerland Model: G20S or
M/s Kyoto Electronics, Japan Model: AT/510 or equivalent**

Limit of Supply

The instrument should be made of European, Japanese or USA origin only. Complete literature for operation and service manual (hard and soft copy) in English language. One year operational and five year service warranty. Complete list of spares and accessories for five year repair and maintenance.

Note! Price break up of each and every quoted item is mandatory.
Package price will lead to rejection of bid.
