

Analog Panel Monitor

N fbtvsft Dvssfou-BdszmjX jpepx -1.61 Bn qt BD-3/58#I fjhui!

\$101.09 Each
7107K123

Window Material	Acrylic
Measures	Current
Input Resistance	0.001 ohms
AC Current	0 to 50 A
Accuracy	±2%
Height	2.47"
Width	2.47"
Depth	2.33"
For Panel Cutout Diameter	2.22"
Depth	1.85"
Wire Connection	Screw Terminals
Mount Type	Threaded Studs
Number of Mounting Studs	4
Mounting Stud Thread Size	4-40
Input, Hz	
Frequency	25-125
Frequency Calibration	60
Pointer Color	Black
Specifications Met	UL Recognized

Observe rapidly changing electrical values in equipment such as motors and generators with an analog display that shows the magnitude and rate of change more easily than a digital display.
