01.	"Carbon Monoxide (CO) Leak Detector" <u>Technical Specifications:</u> • Sensitivity Range: 0.0001% (1 ppm) to 100% CO by volume in air • Response Time: Indication of CO within seconds. Stabilization to final value depends on concentration. • Sensor: Electrochemical sensor • Operating Temp. Range: 10.0 to 60.0 °C • Environment: Indoor/Outdoor Use, Altitude up to 2000 meters, Pollution degree 2 environment • Power supply spec.: Single-phase: 100 to 220 VAC, 50/60 Hz, 0.6 A • Communication: RS-232C • Relative Humidity: 0-95% non-condensing • Product Life Expectancy: 15-20 years • Calibration Period: 12 month basis Make: USA, Germany, Europe and all others excluding China Note: Operating manual should be provided in English language.	02
