

EXPLOSION PROOF WEIGHING BALANCE

Description	Requirement	Qty
Technical Specifications for Explosion Proof Weighing Balances		02
Capacity	1500 kg	
Readability	100 g	
Load Plate	1250 x 1000 mm	
Platform Construction of Material	Stainless Steel	
Protection Class	EExd IIC T4 IP-65/67	
Calibration	Built in automatic calibration functions	
Display Unit	Separate Display Unit	
Features	<ul style="list-style-type: none"> • ISO-test function, EC type approved • Rapid stabilization time (1-1.5 sec) • Built-in data interface • Overload protection, etc. • Data Interface • 4 x Adjustable leveling feet • Built-in indicator 	
Accessories	<ul style="list-style-type: none"> • Remote display with 2.7 m (approx.) cable between platform and display unit • Power supply should conform to ATEX EExd IIC T4 IP-65/67 class. Power Supply YPS02-XDR/equivalent. 	
Notes: <ol style="list-style-type: none"> Make, Model & Origin: Sartorius FC-EX and FCA-EX Explosion Proof Scales, Germany or equivalent. Technical literature of the offered item must be submitted with the quotation.
