

1. SS Cylinder specifications

Ordering Number: 304L-HDF8-1GAL

Double-Ended

Material grade No.: 304L SS/ DOT-3A 1800

Pressure rating psig: 1800

Internal Volume cm³ ± 5 %: 3785 (1 gal)

P In.: ½

Dimensions, in. (mm): Dia = 4.00 (102), length = 26.7 (678), Wall thickness = 0.206 (5.2)

Weight: 9.5 Kg

Features:

- a. Body made of seamless tubing with consistent wall thickness, size, and capacity.
- b. Smooth internal neck transition for easy cleaning and eliminates trapped fluids.
- c. Cold-formed female NPT threads for greater strength.
- d. Heavy-wall end connections for strength and resist flaring.

Make: Swagelok or equivalent

Quantity required: 24 No. ←

2. SS BLOW DOWN needle valves

Part No.: SS-6DBS8

Body material: SS-316

Size: ½" ferrule fitting

Make: Swagelok or equivalent

Quantity required: 24 No. ←

3. SS Male plug of SS cylinder

Size: NPT ½ "

Make: Swagelok or equivalent

Quantity required: 24 No. ←
